Panago’s Commitment to Health and Nutrition — Chart Overview:

Enclosed you will find a nutritional chart which provides information on the five pizzas, Panago has designated for Ontario’s School Hot Lunch Programs. Using the chart, parents and schools are able to assess which pizzas and serving sizes are the best fit. Please note that if a serving size does not meet the requirements for the most desired category, we have provided an explanation within the chart legend below.

Summary of Ontario’s School Food and Beverage Policy

The categories are based on the following:

Sell Most – Products in this category are the healthiest options and generally have higher levels of essential nutrients and lower amounts of fat, sugar, and/or sodium. They must make up at least 80% of all food choices that are available for sale in all venues, through all programs, and at all events. The same requirement applies to beverage choices.

Sell Less – Products in this category may have slightly higher amounts of fat, sugar, and/or sodium than food and beverages in the “Sell Most” category. They must make up no more than 20% of all food choices that are available for sale in all venues, through all programs, and at all events. The same requirement applies to beverage choices.

Not Permitted for Sale – Products in this category generally contain few or no essential nutrients and/or contain high amounts of fat, sugar, and/or sodium (e.g. deep-fried and other fried foods, confectionery). Food and beverages in this category may not be sold in schools.

The following five pizzas satisfy Ontario’s Sell Most Category:

School Hot Lunch Program Frequently Asked Questions:

Dietary Requirements:

- Q:** Does Panago offer a nut-free environment?
- A:** Peanuts, peanut oil and tree nuts are not used in any Panago products. As all products are prepared in an open-kitchen environment, we cannot guarantee a 100% allergen-free environment.
- Q:** Does Panago offer gluten-free options?
- A:** Yes, Panago offers a variety of gluten-smart options including a gluten-smart crust. However, as all products are prepared in an open-kitchen environment, we cannot 100% guarantee that there has been no cross contamination with flour. For more details on our gluten-smart products please contact schoolprograms@panago.com or call 1-855-331-0001.
- Q:** How can I ensure your products will not have ingredients my children are allergic to?
- A:** A copy of Panago's Allergen Chart is included in this package. The chart indicates the presence of any of the commonly declared allergens recognized by the Canadian Food Inspection Agency. Please let us know if there are any specific allergens that you would like us to be aware of when serving your school.
- Q:** Does Panago offer any Halal meat or vegetarian pizza options?
- A:** Yes, we offer a Veggie-Lite pizza and a Meat-Free Pepperoni. We also have over 10 ingredients on our menu, which can be used to build a vegetarian pizza. All of our cheese is rennet-free. At this time, we offer Halal chicken in select Ontario Panago locations (Mississauga only).

Nutrition:

- Q:** How can I access nutritional information for pizzas that are part of your School Hot Lunch Program?
- A:** Upon request, nutritional labels and information corresponding to various serving sizes are available. In addition, we have also developed a "Health and Nutrition" chart that can be used to determine which pizzas and serving sizes best fit the province of Ontario's policy. A more comprehensive nutritional chart featuring all of our products can be obtained by visiting the nutrition section of our website at panago.com.
- Q:** What changes can be made to a Panago lunch so that my child receives extra vegetable and/or fruit servings?
- A:** Adding a Panago 100% organic juice box to your hot lunch program will allow children to obtain additional fruit in their diet. The fruit juices, which contain

no added sugar, come in a variety of flavours including: Grape Apple, Orange Mango and Lemonade.

We also offer schools a salad program for lunch. For more details, please contact your local Panago store owner.

- Q:** Can we decrease the amount of cheese that is on the pizza?
- A:** Yes, we can decrease the amount of cheese on our pizza if required. However, the cheese provides children with a good source of protein as well as the daily recommendations of calcium as outlined by the Canadian Food Guide. We use 2% partly skim and rennet-free mozzarella cheese that is lower in fat.

Pricing:

- Q:** What is the price for your school pizzas?
- A:** Panago offers a discounted rate for School Hot Lunch fundraising initiatives. To acquire your special school pricing, visit your local Panago location or call 310-0001. The serving size must also have less than 5g of saturated fat, less than 960mg of sodium, have 2g or more of fibre and incorporate at least 10g of protein. Schools are encouraged to choose any of the 5 large school pizzas noted above cut into 8 slices on a Multigrain or Original Hand-tossed crust.
- Q:** Can schools offer students pizza that does not fit into the "Sell Most" category?
- A:** Yes, your school principal may designate up to ten days (or fewer, as determined by the school board) during the school year as special-event days on which food and beverages sold in schools would be exempt from the nutrition standards outlined in the School Food and Beverage Policy. The school principal must consult with your school council prior to designating a day as a special-event day.
- Q:** Do your School Hot Lunch pizzas meet the requirements for Bill 8 (no added trans fats) which was implemented in 2008?

At Panago we know that Kids LOVE pizza day but we also understand that variety and choice can be extremely important to our schools and PAC committees when deciding on a hot lunch food provider.

Recognizing the need to offer a general solution for those schools who would like the ability to have multiple food offerings, we are introducing a new partnership with **HotLunches.net**, an easy-to-use system for the placing and management of school hot lunch programs.

By agreeing to use Panago as your pizza provider, your school will get access to this trouble-free software and for new schools 30% off the sign up fee for the year. Not only is this system incredibly simple but has no transaction fees, no limits on the number of menu dates, menu items, number of orders or frequency of order placement. Lunchtime just got a whole lot better.

Why HotLunches.net?

This powerful application will make your school hot lunch program easier to manage, save you time and save your school hundreds of dollars by tracking outstanding orders, ensuring accuracy of order calculations and providing accurate supplier order quantities.

HotLunches.net allows an application administrator to define a hot lunch schedule, which consists of the set of hot lunch dates, and a menu for each date. Once the schedule has been defined, parents can register, login and add their students to the system. After the students are in the system the parents can place hot lunch orders for their students using a simple on-line form that will total their orders for them, ensuring accuracy in order placement.

The system also manages teachers and school staff, generates class contact lists, the staff directory, and the Council Executive directory, manages on-line documents and allows the administrator to customize some page content. There is also a powerful email broadcast system for communicating with registered parents.
